

Cold Case Seminar

Up one level

The Cold Case Seminar is a 3 ½ day course designed to provide the investigator with an overview of the NCIS Cold Case Methodology and Protocol. A wide range of investigative steps, to include the use of non-traditional investigative techniques, will be covered in depth during the course of instruction. The methodology and protocol will be illustrated through case studies of successfully resolved cold homicide investigations. Upon completion of this course, the investigator will have a sound knowledge of how to prepare and conduct a cold homicide investigation. Information on the LINX, a database system that provides access to law enforcement incident and investigative data collected and contained within a central data warehouse.

Type: Advanced

Length: 3 1/2 days

Curriculum

- NCIS Cold Case History
- Methodology and Protocol: Reactivating Cases Solvability Factors
