

National Sheriffs' Association Training Seminar

This NSA Jail Training Initiative Offered in Partnership with the Training Resource Center, Eastern Kentucky University's College of Justice & Safety

The Critical Elements, Skills and Strategies of Leadership

October 13 - 15, 2010 ■ Richmond, Kentucky

Course Description

The mission of this training focuses on providing you with both the concepts and the techniques for being a humane leader.

This experiential learning program will help current and potential leaders develop knowledge and abilities in six competencies of human functioning.

This training seminar is different from the typical leadership-by-lecture training that focuses on leadership theories, strategies, styles and the “rules.” Instead, it provides a curriculum that addresses *personal development*, emphasizing a “human technology” approach versus a “human knowledge” approach.

Seminar Instructors

- **Steve Samson** has been teaching conflict resolution and interpersonal skills for more than 30 years.
- **Jack Enter** is the author of *Challenging the Law Enforcement Organization: Proactive Leadership Strategies*.
- **Gary DeLand** has traveled to more than 45 states to provide legal issues and other criminal justice training.
